```java
/*NAME:HARSH TRIPATHI
ROLL NO:59*/
class Nestedif {
    public static void main(String[] args) {
        int age = 21;
        int weight = 75;

        if (age >= 18) {
            if (weight > 50) {
                System.out.println("You can donate blood");
            }
        }
    }
}
/*
 * OUTPUT
 * You can donate blood
 */
```
